

Discontinuation of FCW type oil cooler

We regret to inform that FCW type oil cooler will be discontinued soon.
Due to material and parts supply from our supplier will be hard and we made this decision.

1. Discontinued Products

Built-in temperature control valve FCW-350A~311A Type Oil cooler

Special product based on FCW type

2. Date of discontinuation

Production will continue until August 31, 2025

※Production end date may be earlier depending on order status.

3. Reason for Discontinuation

Decrease in the number of orders received and difficulty in obtaining parts.

4. Spare parts

Spare parts such as packing, O-ring, Zn plug, etc. will be supplied even after the end of production.

5. Supply period of spare parts

10 years (We have set a 10-year supply period for supplementary products.)

6. Equivalent product

No temperature control function is available, but please consider FCF/ FCD type.

If anything unclear, please contact us freely.
